The 5G RF Blocker Bracelet

A Perfect Solution to protect you from harmful RF Radiation in your environment! We have developed this attractive stainless-steel bracelet to be worn on your left wrist that defends against harmful 5G RF radiation. The bracelet is made of a soft eco-friendly silicone material and stainless-steel hardware with (4 in 1) Embedded Energy Elements: Far Infrared Ray, Negative ion, Neodymium magnet, Tourmaline and three Germanium Spheres.

Our technology supports the theory that by stimulating the body's ability to heal itself naturally using subtle bio frequency from the energy bracelet, your body will maintain better health and mental wellness.

What is an Electromagnet Field (EMF)?

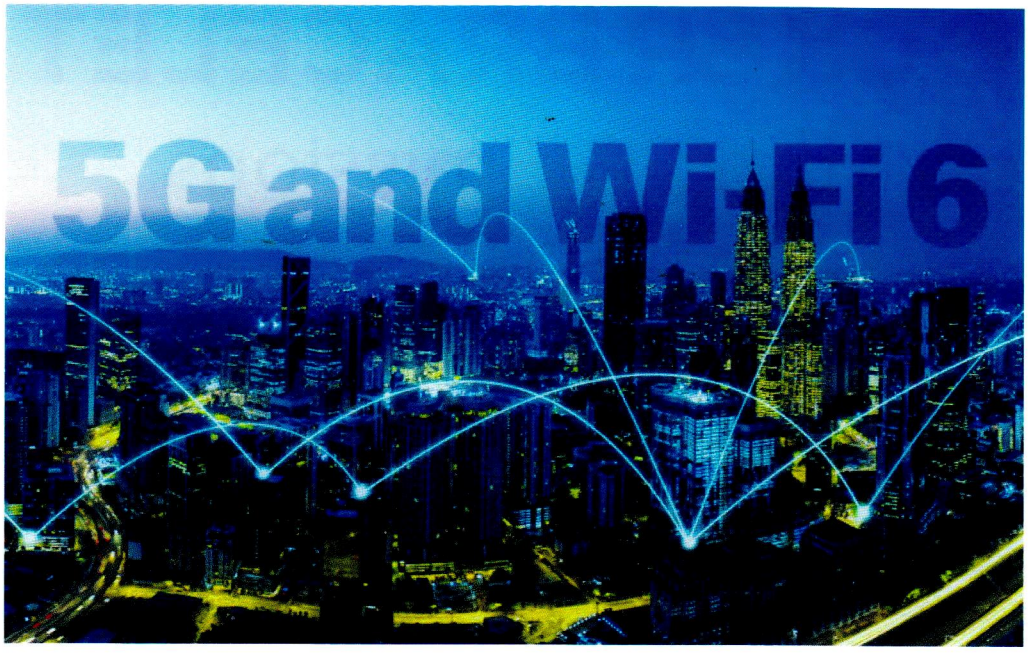
An electromagnetic field is an area made up of two types of fields, an electrical field and a magnetic field. Both fields are produced when electricity (specifically alternating current) passes through a wire. So, when you plug your cell phone into the wall outlet for charging, a rush of electricity charges the battery creating an electrical field. Continuous movement of electrons generates a magnetic field. You combine the two fields, and you end up with an electromagnetic field or EMF for short.

RF Emissions Facts:

5G cell towers are more dangerous than other cell towers for two main reasons. First, compared to earlier versions, 5G is ultra-high frequency and ultra-high intensity. Second, since the shorter length millimeter waves (MMV) used in 5G do not travel as far (or through objects), with our current number of cell towers the cell signal will not be reliable. To compensate many more mini cell towers must be installed. It is estimated that they will need a mini cell tower every 2 to 8 homes. This will greatly increase our RF Radiation exposure.

1G, 2G, 3G and 4G use between 1 to 5 gigahertz frequency. 5G uses between 24 to 90 gigahertz frequency. Within the RF Radiation portion of the electromagnetic spectrum, the higher the frequency the more dangerous it is to living organisms.

The World Health Organization's International Agency for Research on Cancer classified cellular radio waves as a possible carcinogen in 2011 and is undertaking a "high priority" study seeking a more definitive answer.



Far Infrared (FIR) is the band of energy from the sun's spectrum that we use as warmth. Far Infrared technology absorbs from all wavelengths, and into the Far Infrared wavelength. It also helps to support circulation.

Tourmaline is a trace mineral that soothes panic attacks, especially those caused in confined spaces or where the atmosphere is frightening. It also helps fear of doctors or dentists.

The Three Germanium Powder Spheres is a trace element that is used as a dietary supplement. The germanium has been shown to stimulate the immune system, helping the body to fight disease. There's nothing like your own immune supporter to help you overcome illness. Germanium helps to protect the body from the 5G as well.

The 5G Blocker bracelet is specifically programmed on our AFG, (Accelerator Frequency Generator) to protect your body from ultra-high 5G RF frequency. – Remember radiation from cell towers accumulate in your body for years. The 5G RF Blocker bracelet is made to be worn on the left wrist to block high-intensity RF radiation that will be in your location soon.

Specifications:

The 5G RF Blocker Bracelet is made of a soft eco-friendly silicone material and stainless-steel hardware with (4 in 1) Embedded Energy Elements: Far Infrared Ray, Negative ion, Neodymium magnet, Tourmaline and Germanium Spheres.

(4 in 1) Earth's Natural Elements:

Negative Ions have an invigorating effect on the human body while positive ions have the opposite effect, quite often inducing a feeling of tiredness. Negative ions are created naturally by the energy associated with rolling surf, waterfalls and lightning. The levels of negative ions present in different environments highlight the deficiency of negative ions in our everyday domestic environment. The Bracelets are infused with negative ion powder emitting 1000 ions per cubic cm. All physical and mental activity is controlled by electromagnetic fields produced by electro-chemicals (ions) within the body.

Neodymium Magnet: Wearing a magnetic bracelet is a non-invasive way of applying beneficial magnetic fields to the body.

We improved this technology by providing Unipolar Neodymium Magnets emitting 1000-1200 gauss, which is ideal and safe for continuous wearing. Magnetic technology is used in many performance bracelets favored by professional athletes.

Protect yourself and your family with the 5G Blocker Bracelet.

- negative ion
- germanium powder
- neodymium magnet
- far infrared ray
- tourmaline

FACT: All cell towers emit Radio Frequency (RF) Radiation. This is what makes them dangerous. Plans to transition to the new 5G around the world is already underway. Soon every city will be retrofitted with this technology. Mini cell stations will be placed throughout our neighborhoods and cities. They will be installed on the sides or tops of buildings and on street light poles.

5G Bracelet, (R)

$70 EACH + SHIPPING

5G Blocker
REGULAR BRACELET

This style is made for an adult wrist and is more for average to large size.

The 5G Blocker regular size has (5in1) Earth Elements: Embedded Energy Elements: Far Infrared Ray, Negative ion, Neodymium magnet, Tourmaline and (3) Germanium Spheres.

5G Bracelet, (S)

$70 EACH + SHIPPING

5G Blocker
SLIM BRACELET

This style is slimmer and is more adaptable for women and young adults.

The 5G Blocker for slim wrist has (3in1) Elements: Far Infrared Ray, Neodymium magnet, and (3) Germanium Spheres in the center. It's made of the same soft eco-friendly silicone material.

Smart 5G Shield

$25 EACH + SHIPPING

Smart 5G Shield

This Solar Cell device is designed to attach to your smart cellphone or any electronic device that emits radiation.

The Smart 5G Shield is one-inch round device with a strong adhesive back. Able to adhere to any surface. Made of a crystalline carbon material. Domed with a clear flexible acrylic cover for safety from any environmental damage.

5G Pendants

$120 EACH + SHIPPING

5G Pendants

This pendant helps protect you from 5G Cell Towers. The unique design is made with an attached solar cell chip that helps defuse (RF) from 5G Cell Towers.

The 5G Pendant is a choice for protection from 5G Cell Towers that defends against harmful 5G RF ultra-high frequencies. The 5G Pendant is made of a stainless-steel hardware, (Gold or Silver) and is specifically programmed with anti-radiation frequencies on our AFG.

Radiation protection can be easy with the right solution for anti-radiation to protect you and your family, and frankly – that's what we offer. Using our anti-radiation "Smart Chip" products can help reduce your exposure to harmful radiation that emits from your cellphone and other home electronic gadgets.

MADE IN THE USA

5G Pendant

Protects you from Harmful 5G Cell Tower Emissions!

MADE IN THE U.S.A.

AlphaBio Centrix is proud to announce the availability of a custom pendant that protects you from 5G Cell Towers. The unique design is made with an attached solar cell chip that help block (RF waves) from 5G Cell Towers.

Silver Gold

Research:

Our research has found that 5G cell towers are more dangerous than other cell towers for several reasons. 5G is ultra-high frequency and ultra-high intensity. Since the shorter length millimeter waves (MMV) used in 5G do not travel as far (or through objects), the cell signal will not be reliable. The cellphone networks will need a mini cell tower every 2 to 8 houses; this will greatly increase RF Radiation exposure! ***1G, 2G, 3G, and 4G use between 1 to 5 gigahertz frequency. – 5G uses between 24 to 90*** *gigahertz frequency. Within the RF Radiation portion of the electromagnetic spectrum, the higher the frequency, the more dangerous it is to living organisms.*

Concerns:

The wireless industry is racing to install thousands of new cellular sites to create super-fast 5G networks in the US. Unfortunately, the impact of this new technology on human health may be detrimental to the soft cells of the brain and other organs in the human body. The brain contains soft tissue, which includes gray and white matter; it also contains nerve cells, non-neuronal cells (which help to maintain neurons and brain health), and small blood vessels.

We provide a solution to protect you from harmful 5G RF frequencies.

The 5G Pendant is a choice for protection from 5G Cell Towers that defends against harmful 5G RF ultra-high frequencies. The 5G Pendant is made of a stainless-steel hardware, (Gold or Silver) and is specifically programmed on our AFG, (Accelerator Frequency Generator) to protect your body from ultra-high 5G RF frequencies. – ***Remember, radiation from cell towers accumulate in your body for years. The 5G RF Pendant is made to be worn to block high-intensity RF radiation.***

This product is solar cell assisted and will keep working up to (3) years.

Made by AB Centrix, R&D

How it Works:

The 5G Pendant is specifically programmed on our AFG, (Accelerator Frequency Generator) to protect your body from ultra-high 4G and 5G RF emissions.

Our technology is similar to Multi-Wave Oscillator technology. This programming process supports the theory that by stimulating the body's ability to heal itself naturally using subtle bio frequency from the 5G Pendant, your body will maintain better mental awareness from exposure of 4G and 5G emissions.

Our technology uses a patent pending process that incorporates a specific RF composite material that is made of a flexible vinyl, crystalline and carbon composite. This material holds an electrical charge of digital information because the material is made up of opposite electric charges known as dipoles.

The 5G Pendant is designed to block RF radiation from sources such as 4G and 5G cell phone towers and other harmful environment areas in or around your home and office.

RF protection can be easy with the right solution for anti-radiation to protect you and your family. By using the **5G Pendant** you can help reduce your exposure to harmful radiation emissions from cell phone towers and other sources that emit radiation.

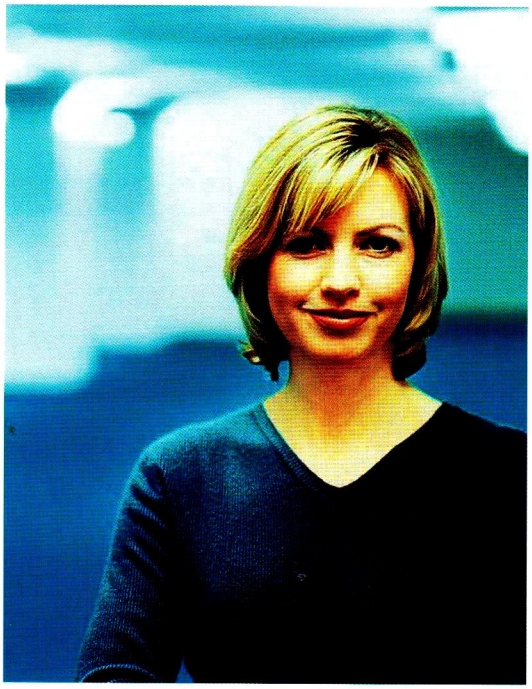
This pendant is not intended to diagnose, treat, cure or prevent any disease.



SUPPORT FROM AB CENTRIX

AB Centrix, R&D has been devoted in studying the effects of ERM's and EMF's emissions for the past eighteen years on how non-ionizing radiation affects the human body.

What Is 5G?

5G is a technology that uses most of the microwave portion of the electromagnetic spectrum. In that range the radio waves are shorter in length, travel shorter distances, get obstructed much more easily, but can carry much more data. It is this more data part that has attracted the technology industry to 5G.

More data means more capabilities. Similar to how download speeds increased significantly when we switched from the 3G to 4G cellular networks. 5G promises to dramatically increase download speeds. Instead of taking hours to download a movie it can happen in just a minute or two. And this opens up the possibility of things like self-driving cars, holograms and connecting every electronic device to the network. ***We deliver solutions!***
