

### Distance Session:

- Using your personal CELL phone, call the client’s CELL phone.
- Give a brief explanation of the Scan(s).
- The client wears their personal headset.
- Place YOUR cell phone down and the AO Scan mobile “Mouth to Mouth” (shown in the image below).
- Run the Scan(s) and Optimizing Frequencies.
- Send the report(s) to client if appropriate
- Send the reports to yourself.

Use your cell Phone to speak w/ client before and after the Scans.

Run the Scans from your AO Scan Mobile while your client is on THEIR CELL phone.

Note: although one can use the AO Scan Mobile phone to originate the call from, I prefer to use my personal cell phone to dialogue with the client.

Prior to the call, I download the client’s photo from my email address set-up on the AO Scan device for ease to upload onto the client profile.

The AO Scan Mobile device is NOT a medical device and does not diagnose, treat or cure any disease.
